

Your contributions this past year enabled us to perform substantial repairs on 8 homes and 6 community projects on our April 2007 workday. You have helped unite over 400 volunteers, both skilled and unskilled, as they performed more than \$150,000 in improvements – ranging from major projects, like installing an elaborate wheelchair ramp, to relatively minor repairs, like fixing leaky plumbing. Since our inception in 1997, we have completed 106 projects locally. We are quite proud of our effectiveness as a charity because we have been able to provide \$4 worth of services (labor and materials) for every \$1 we raised.

Whether major or minor in scope, these improvements have brought hope to the hearts and smiles to the faces of homeowners who struggle to maintain both their homes and their dignity. While there is much good news happening in our community, there is also an increasing amount of struggle. Therefore, your support is as important now as it has ever been!

On Saturday, April 26, 2008, Rebuilding Together - Duneland has set our sights on 12 projects. This support is funded exclusively by donations from banks, corporations, religious and civic groups, foundations and individuals.

Please fill out the attached donation form and return by February 1st, 2008.

Meanwhile, if you have any questions concerning the Rebuilding Together - Duneland program and your involvement, please call us at (219) 926-3233 or email us at info@rtduneland.org.

We thank you in advance for your consideration and contribution this coming year. Please help us make our 12th year our most successful.

Sincerely,

Keith Davison
2008 Fundraising Chairperson
